

PASSING NCLEX QUICK TIPS

01.

KNOW THE EXAM

Make sure you understand the exam, how much time you have and the content breakdown. You can find this on the NCSBN website!

PRACTICE QUESTIONS

Do 50+ practice questions a day and review rationales for every question (right or wrong)! This is going to be very helpful when you take the exam as you will be prepared to think like the test makers.

02.

03.

STUDY PLANNING

Plan your heavy studying 4-6 weeks prior to the exam date. Write it out in a digital calendar or planner. Plan exactly what you will review each day. This will make it easier to study!

NCLEX PREP COURSE

Take an NCLEX prep course 4-6 weeks before your test date. In these courses, they will cover more test taking strategies and help you understand what the exam is looking for in answers.

04.
